How to deal with E-Bikes on Rides? Open discussion. How can we educate and assist new riders?

- On events be sure to ask if e-bike will be ridden.
- Question experience of rider.
- Find out if rider knows how long their battery will last.

Tour de Lakes debrief: Diana D.: There was food left over. Will discuss viability of the Courtright cutoff as a rest stop. It seemed to be dangerous as riders were not heeding warnings about standing in the roadway. Bill Asselin pointed out there were issues with riders not riding in single file.

Ambulance at events? Dennis B.: Expensive. Best to put cities/counties/police on notice of rides so they can have personnel in case of emergency.

Discussion about need for monthly board meetings: Dennis B.: The bylaws require at least once per quarter. After discussion: We will keep once a month at this time.

Grizzly Century: Tony I.: Sponsors are set. Using the same location. Adding a short course for gravel. Socks for riders.

Tour de Femme: Janet L.: 35 entries to date. Same distances, but course adjustment to be made to remove the trail sections. Jerseys and T-Shirts available for purchase.

New Business: William asked about moving away from standing positions? It does not seem those involved are engaged and are not attending meetings. Will table for further discussion.
